

APPLICATION OF THE **ORIGAMITEK** TECHNOLOGY IN DESERT AREAS

DESERT- DOMES - Housing for extremely hot climates

The ideal solution for extreme hot places of the world, such as Dubai, Sahara, Namib, Kalahari, Ogaden in Africa, Victory in most of Australia; the Gobi desert (or Chamō), Kara Kum, Takla Makán, Arab desert, Rub to Khali, Syria, Judea, Sinai-Negev in Asia, and the deserts of Arizona-Sonora, Mojave, Atacama, Sechura and the dunes of Paraguana in America.

A never seen before constructive solution that offers economy, comfort and beauty at the same time, to produce a new generation of Architecture and Engineering that ensures freshness in its interior, reducing up to 20 degrees Celsius of temperature and generating **great energy savings** as a result.

Sand-Houses of an exotic beauty, which will blend completely into the landscape offering the possibility of living in a real **Oasis of freshness**.
