

## APPLICATION OF THE **ORIGAMITEK** TECHNOLOGY IN SNOW PLACES

### **SNOW-DOMES** - Ideal housing for low temperatures

Materials engineering applied to housing solutions for extreme cold climates, able to withstand heavy snow loads, while maintaining a warm interior temperature.

Technology that combines materials of last generation and thermal insulation Add-ons that block the passage of the cold to the interior.

**Origamitek** is synonymous of energy savings and total integration with nature, generating wide, illuminated and comfortable spaces of a beauty never seen before.
